# Program the savings all day

## And get up to $105 back

aps

Managing energy costs is easier with a smart thermostat. Set it to maintain the ideal temperature whether you're at home or away. You'll stay comfortable and save money at the same time.

Here's how you could get up to $105 back:

**$30 rebate** with the purchase of a qualifying smart thermostat
**$50 bill credit** when you enroll in Cool Rewards or Rush Hour Rewards
**$25 bill credit** each year you're enrolled

Participation in **Cool Rewards** and **Rush Hour Rewards** is easy. During events, which occur on the warmest summer days, your thermostat will automatically be adjusted a few degrees.
