

**SMALL WIND GRID TIED SYSTEM
INVERTER SHUTDOWN TEST CERTIFICATION**

_____ (“Installer Name”) has installed, on behalf of
_____ (“Customer Name”), the Wind System on Customer’s property
located at: (“installation address”) _____

I, _____ (“full name of person performing the test”), do hereby certify that a shutdown test has been satisfactorily performed on the Wind System inverter(s) installed at the site listed above and that such inverter(s) automatically shut down in less than one second upon loss/simulated loss of Utility power to the inverter(s). I further certify that such testing was performed by a person or entity suitably qualified to perform such testing.

Such testing has been performed for the following inverter(s):

No.	Manufacturer Name	Inverter Model number
1		
2		

Installer by their signature below certifies that the above information relating to the Wind System testing is true and accurate.

Installer Signature

Date

Person performing the test (if other than installer)
