

Start the new year right.
Turn off your paper bill today.

January is "Get Organized" month. And what better way to reduce the clutter in your mailbox and on your desk than by reducing the number of paper bills you receive? As a SurePay customer, you can eliminate your paper bill and enjoy the time-saving and clutter-free convenience of reviewing your bill electronically. Each month, instead of a paper bill, we will send you an e-mail notice when your bill is available to be viewed on-line. It's fast, secure and convenient. And with electronic billing, we use less paper and envelopes, which helps the environment.

Less paper, less clutter, more convenience. It's just a mouse click away. Register at aps.com and select the option to turn off your paper bill today.
