

# POWER PARTNERS

Our company is committed to saving energy when it matters the most — on Peak Power days this summer when temperatures exceed **110** degrees.

## **On Peak Power days we:**

- ☀ Turn up our thermostats
- ☀ Turn off unnecessary lights and appliances
- ☀ Shift energy using tasks to morning or evening hours

Power Partners is a partnership where everyone wins, with better reliability and dependable power.

**APS Power Partners**  
**Saving Energy When it Matters Most**

THE **POWER** TO MAKE IT HAPPEN<sup>®</sup>
