

# BIOGAS ENERGY

1. What is an anaerobic atmosphere?

**Little or no oxygen**

---

2. What can break down solid animal waste to release methane?

**Digester**

---

3. What is a major constituent of natural gas?

**Methane**

---

4. When biogas is cleaned, what is taken out

**Methane**

---

5. What can biogas be used as?

**Produce heat and power**

---

6. What does the engine/generator produce?

**Produce electricity or usable gas**

---
