

January 28, 2010

Dear Renewable Customer and Installer,

Due to the increased volume that always accompanies the end of the year, we feel now is the appropriate time to inform you of our interconnection scheduling policy for **Non-Residential** year end commissioning requests.

To be eligible for a 2010 commissioning date, we must receive a complete interconnection application, including a full set of diagrams by **October 8, 2010**; the interconnection application/diagrams must be approved by **November 5, 2010**.

Scheduling your inspection by year's end must be completed by **November 19, 2010** to ensure we can meet our commitments.

Our intention is that this notification will make for a smooth year end for APS and our customers. If you have any questions, please feel free to contact your interconnection team at 602-371-6160 or email us at Commercial-Renewables@aps.com.

Rick Welch
Interconnection Project Manager
