

Change a Light, Change the World With APS and ENERGY STAR®

APS has partnered with ENERGY STAR's *Change a Light, Change the World* program and home improvement retailers, encouraging you to replace your standard light bulbs with long-lasting compact fluorescent light bulbs (CFLs). APS is working with manufacturers to make discounted CFLs available for a limited time at select retailers (see reverse side) in APS service area.

By using 75% less energy, CFLs help reduce demand for electricity and save you money. Purchase a CFL today and join the growing number of people who are changing the world, one light at a time.

Did you know
CFLs can save more than \$25 in energy costs over the life of the bulb?

APS and ENERGY STAR have partnered to help APS customers save money and make their homes more comfortable with ENERGY STAR compact fluorescent light bulbs. ENERGY STAR is the U.S. EPA's label for energy efficiency.

Find a participating retailer
aps.com or by calling 1-800-783-7253

Participating Retailers

Find discounted CFLs at these retailers. Look for additional retail locations coming soon.
