

PowerClerk Updates

Grace Eidson & Alex Martinez

Installing a Meter Socket Adapter (MSA)

- Select Meter socket adapter as type of connection

Specify the type of connection * ?

- Load side
- Supply side (solar ready)
- Load side tap
- Supply side tap
- Meter socket adapter

- Select the make and model of the MSA

Meter Socket Adapter * ?

If you do not find the equipment's manufacturer and/or model number in the drop down menu, email renewables@aps.com. Include the manufacturer name, model number, and specification sheet with 'Equipment Not Listed' in the subject line. Do not use alternate equipment as this will delay the process. ×

Application Updates/Corrections

The following revisions are required. If revised documents are needed, please remove and replace in the Attachments section below.

Comments from APS for corrections needed

If changes to the application are necessary, please note them below and we will update the application.

Updates/corrections needed to application from project owner

Equipment Addendum Request

This form is required for minor modifications to the design of the generating facility.

Is the total system size changing? * ?

- Yes
 No

Per APS Interconnection Requirements, a change in total system size is not considered a minor modification. Therefore, this application will be canceled and a new application must be submitted for review.
