14 Open Meeting  
15 November 5 and 6, 2019  
16 Phoenix, Arizona

17 BY THE COMMISSION:

18 Pursuant to A.R.S. § 40-360, *et seq.*, after due consideration of all relevant matters, the  
19 Arizona Corporation Commission (Commission) finds and concludes that the Certificate of  
20 Environmental Compatibility (CEC) issued by the Arizona Power Plant and Transmission Line Siting  
21 Committee (Siting Committee) is hereby approved as granted by this Order.

22 The Commission, in reaching its decision, has balanced all relevant matters in the broad  
23 public interest, including the need for an adequate, economical, and reliable supply of electric power  
24 with the desire to minimize the effect thereof on the environment and ecology of this state, and finds  
25 that granting the Project a CEC is in the public interest.

Decision No. \_\_\_\_\_

1           The Commission further finds and concludes that in balancing the broad public interest in this  
2 matter:

3           1.       The Project is in the public interest because it aids the state in meeting the need for an  
4 adequate, economical, and reliable supply of electric power.

5           2.       In balancing the need for the Project with its effect on the environment and ecology of  
6 the state, the conditions placed on the CEC effectively minimize its impact on the environment and  
7 ecology of the state.

8           3.       The conditions placed on the CEC resolve matters concerning the need for the Project  
9 and its impact on the environment and ecology of the state raised during the course of proceedings  
10 and, as such, serve as the findings on the matters raised.

11          4.       In light of these conditions, the balancing in the broad public interest results in favor  
12 of granting the CEC.

Open Meeting  
November 5 and 6, 2019  
Phoenix, Arizona

BY THE COMMISSION:

Pursuant to A.R.S. § 40-360, *et seq.*, after due consideration of all relevant matters, the Arizona Corporation Commission (Commission) finds and concludes that the Certificate of Environmental Compatibility (CEC) issued by the Arizona Power Plant and Transmission Line Siting Committee (Siting Committee) is hereby approved as modified by this Order.

The Commission, in reaching its decision, has balanced all relevant matters in the broad public interest, including the need for an adequate, economical, and reliable supply of electric power with the desire to minimize the effect thereof on the environment and ecology of this state, and finds that the CEC for the above-captioned application for siting approval is in the public interest as modified by the Order.

...

...

Decision No. \_\_\_\_\_

1 The Commission modifies the CEC to add the following conditions:

2 The Commission further finds and concludes that in balancing the broad public interest in this  
3 matter:

4 1. The Project is in the public interest because it aids the state in meeting the need for an  
5 adequate, economical, and reliable supply of electric power.

6 2. In balancing the need for the Project with its effect on the environment and ecology of  
7 the state, the conditions placed on the CEC as modified by the Commission effectively minimize its  
8 impact on the environment and ecology of the state.

9 3. The conditions placed on the CEC as modified by the Commission resolve matters  
10 concerning the need for the Project and its impacts on the environment and ecology of the state raised  
11 during the course of proceedings and, as such, serve as the findings on the matters raised.

12 4. In light of these conditions, the balancing in the broad public interest results in favor  
13 of granting the CEC as modified by the Commission.

14 Open Meeting  
15 November 5 and 6, 2019  
16 Phoenix, Arizona

17 BY THE COMMISSION:

18 Pursuant to A.R.S. § 40-360, *et seq.*, after due consideration of all relevant matters, the  
19 Arizona Corporation Commission (Commission) finds and concludes that the above-captioned  
20 Application for a Certificate of Environmental Compatibility (CEC) for siting approval is not in the  
21 public interest and therefore the CEC issued by the Arizona Power Plant and Transmission Line  
22 Siting Committee (Siting Committee) is hereby denied by this Order.

23 The Commission, in reaching its decision, has balanced all relevant matters in the broad  
24 public interest, including the need for an adequate, economical, and reliable supply of electric power  
25 with the desire to minimize the effect thereof on the environment and ecology of this state, and finds  
26 that granting the Project a CEC is not in the public interest.

27 ...

28 ...

Decision No. \_\_\_\_\_

1 The Commission finds and concludes that in balancing the broad public interest in this matter:

2 1. The evidence in the record is not sufficient to weigh the balancing of the public  
3 interest in favor of granting a CEC in this matter when all the factors set forth in A.R.S. § 40-360.06  
4 are considered along with the need for an adequate, economical, and reliable supply of electric  
5 power.

6 2. The conditions placed upon the CEC are not sufficient to weigh the balancing of the  
7 public interest in favor of granting a CEC in this matter when all the factors set forth in A.R.S. § 40-  
8 360.06 are considered along with the need for an adequate, economical, and reliable supply of  
9 electric power.

10 3. The record compels balancing the competing public interests in favor of protection of  
11 the environment and ecology of the State of Arizona by denying Applicant a Certificate of  
12 Environmental Compatibility.

13 4. The CEC issued by the Siting Committee should not be confirmed and approved by  
14 the Commission.

15 5. The Commission's findings one through four above serve as the Commission's  
16 findings of fact and conclusions of law in reaching its decision.

17 Therefore, the Commission further finds and concludes that the CEC issued by the Siting  
18 Committee is hereby denied by this Order; and, the above-captioned Application for a CEC is hereby  
19 denied by this Order.
