BENJAMIN FRANKLOWN™

Presented by  **aps**

BENJAMIN FRANKLOWN™ SAYS “SAVE ENERGY AND BE SAFE!”

In cooperation with AFBEA, Arizona Fire and Burn Educators Association, APS is proud to bring electric, fire and life safety messages to our community. We have developed a 20-minute interactive experience for students in grades PreK-4.

In an assembly format, students will be invited to visit with Benjamin FrankLown as he talks about electricity and fire safety. He will give a tour of his home from the front door to the window, light switch, television, refrigerator and much more, as only an educated clown can.

This adventure brings home the message that **“It’s ok to have fun while learning about electric, fire and life safety.”** Mr. FrankLown will ask students for their help to make sure he’s doing the right thing to be safe.

At the end, each student will receive a worksheet and bookmark that will review the topics covered in the program.

Terry Ricketts, APS
PO Box 53999, MS 8528, Phoenix, AZ 85072-3999
Fax 602 250 2113 E-mail terry.ricketts@aps.com

APS is offering two performances (PreK-1 grades and 2-4 grades) back to back to public schools within its service territory. If you’re interested in applying for a visit from Benjamin FrankLown, please provide the following information and answers to the questions found in the column to the right.

SCHOOL INFORMATION

Do you have a school-wide energy conservation program? If yes, please describe.

How will an assembly performed by Benjamin FrankLown benefit your school and students?

How many students will be impacted by this assembly?

How did you hear about the Benjamin FrankLown assemblies?
