

APS SOLUTIONS FOR BUSINESS

## Energy Insights Training Series

The APS Solutions for Business Energy Insights Training Series provides educational opportunities for the business community to learn about fundamental energy concepts and stay up to date on the latest trends in energy management.

**See a topic of interest?** Sign up for any of the trainings below by clicking on the [Sign Up](#) link. Schedule to attend an upcoming webinar or view the recording of a previous training.

---

### Chiller & RTU Maintenance Best Practices

Explore proven practices for maintaining specific elements of RTUs and chillers – like coils, fan belts, compressors, economizers and more.

**Wednesday, January 15<sup>th</sup>, 2020**

[Sign Up](#)

### Electric Vehicles Charge Ahead

Get up to speed on EVs and how they will impact the future of businesses like yours and Arizona's community.

**Wednesday, January 29<sup>th</sup>, 2020**

[Sign Up](#)

### Energy Efficiency for Commercial Customers

Learn energy-efficiency basics, covering energy vs. power, insulation and windows. Plus, take a deeper look at four end-use technologies and discuss savings solutions for each of them.

**Wednesday, February 12<sup>th</sup>, 2020**

[Sign Up](#)

### Making the Grade: Energy-Efficient Schools and Universities

Explore the benefits schools can experience by improving the efficiency of equipment and systems. Learn about the non-utility benefits of energy upgrades, and how your peers have put energy efficiency into action.

**Wednesday, February 26<sup>th</sup>, 2020**

[Sign Up](#)

### Fundamentals of Electric Power

Join us to learn the nuts and bolts of power generation, transmission, and distribution.

**Wednesday, March 11<sup>th</sup>, 2020**

[Sign Up](#)

### **Peak Demand Management**

Discover everything you need to know about peak demand management and what it means for your energy efficiency initiatives.

**Wednesday, March 25<sup>th</sup>, 2020**

[Sign Up](#)

### **Electrical Safety in the Workplace**

April is Safety month. Join us for a safety webinar to learn ways to be proactive and protect your employees from workplace electrical hazards.

**Wednesday, April 8<sup>th</sup>, 2020**

[Sign Up](#)

### **APS Energy Information Services**

Learn how to track and analyze 15-minute energy usage data to optimize your energy use and reduce costs.

**Wednesday, April 22<sup>nd</sup>, 2020**

[Sign Up](#)

### **Energy Management Opportunities for Property Managers**

Learn where energy is consumed, how to incorporate green leases and how to debunk some of the common energy myths that may be keeping your management from investing in energy efficiency.

**Wednesday, May 6<sup>th</sup>, 2020**

[Sign Up](#)

### **Energy Management Opportunities for Industrial Customers**

This webinar on industrial energy efficiency will cover the basics, including electricity intensity by segment, kW versus kWh, power factor, insulation and more.

**Wednesday, May 20<sup>th</sup>, 2020**

[Sign Up](#)

### **Energy Management Opportunities for Restaurants**

Get Your Restaurant on the Path to Energy Savings! This webinar will focus on restaurants and food service facilities where refrigeration and cooking end-uses consume a considerable share of total electricity consumption.

**Wednesday, June 3<sup>rd</sup>, 2020**

[Sign Up](#)

### **Energy Management Opportunities for Grocery and Convenience Stores**

Find out How to Reduce Energy Waste at Your Market! The webinar will highlight ways to reduce electricity consumption by focusing on refrigeration improvements, lighting technology, HVAC systems, and more.

**Wednesday, June 17<sup>th</sup>, 2020**

[Sign Up](#)

### **Fluid Motion: Achieving Energy Efficient Pumping Systems**

Join us for a deep dive into: where pumps are used, what are the most popular pump types, how pumps are selected and what pump efficiency opportunities you may have.

**Wednesday, July 22<sup>nd</sup>, 2020**

[Sign Up](#)

### **Energy Storage**

Join us to take a look at energy storage today and into the future.

**Wednesday, August 5<sup>th</sup>, 2020**

[Sign Up](#)

### **Getting the Most Out of ENERGY STAR Portfolio Manager**

Join us to learn how ENERGY STAR<sup>®</sup> Portfolio Manager, the free online energy management tool, can help you save.

**Wednesday, August 19<sup>th</sup>, 2020**

[Sign Up](#)

### **Breathe Easy: Energy Efficient Building Ventilation**

Which ventilation approach works best for your facility? Join us to explore the eight best practices for improving indoor air quality (IAQ).

**Wednesday, September 16<sup>th</sup>, 2020**

[Sign Up](#)

### **How to Improve Energy Efficiency in a Compressed Air System**

Feeling the pressure from costly compressed air? We can help. Join us and learn how to improve your compressed air systems energy efficiency.

**Wednesday, October 7<sup>th</sup>, 2020**

Coming Soon

### **Money Talks: Energy-Efficiency Investment Analysis**

Do not let inadequate financial analysis stop a good project dead in its tracks. Join us to learn the fundamental financial concepts of investment analysis and the know-how to discuss energy saving investments.

**Wednesday, October 21<sup>st</sup>, 2020**

Coming Soon

### **Best Practices for Lighting Controls**

Join us and learn best practices for advanced lighting controls. Plus, we'll review the evolution of lighting codes, a variety of lighting code strategies, occupancy and daylighting sensors, dimming equipment and six lighting control methods.

**Wednesday, November 4<sup>th</sup>, 2020**

Coming Soon

### **APS Service Plans**

Join us to learn the many factors that are used to design APS service plans. We will discuss in detail the various items that make up your utility bill.

**Wednesday, November 18<sup>th</sup>, 2020**

Coming Soon

### **Backup Generators for Business Continuity**

Join us we cover the basics, including backup generator fuel sources and the differing code requirements for emergency generators versus standby units.

**Wednesday, December 2<sup>nd</sup>, 2020**

Coming Soon

### **The Best of the Web: Energy Calculators**

Learn how to make informed, strategic energy choices with the best online analytical tools and calculators for lighting, motors, HVAC, variable frequency drives, whole building and renewables.

**Wednesday, December 16<sup>th</sup>, 2020**

Coming Soon
