

2020 Multifamily Energy Efficiency Program

EXISTING COMMUNITIES PROGRAM APPLICATION

The APS Multifamily Energy Efficiency Program (MEEP) helps residents of multifamily communities reduce their energy costs by providing energy-saving products free of charge. This program has a limited budget, but is a multiyear program. Applications will be processed until allocated funds are reserved or spent each program year. The following instructions provide basic guidelines for program participation.

PROGRAM ELIGIBILITY

This program is available to multifamily communities larger than five (5) units and located in the APS service area.

PARTICIPATION PROCESS

- An APS MEEP team member will visit your facility and take an inventory account of the available products to be installed in all units.
- MEEP participants are required to fill out and sign this application agreement to get the inventory ordered and delivered to the facility.
- Please provide a copy of a utility bill showing your property is served electricity by APS.
- Participants will have 30 days to install the products after delivery to the facility.
- An APS MEEP team member will then perform a post inspection to ensure all products have been installed.
- Any products left over after installation will be collected by an APS representative during the post-inspection process.

ASSESSMENT AUTHORIZATION

Unit Metering: Individually Metered Master Metered

APS Account Number _____

TERMS AND CONDITIONS

I, as the owner or authorized representative of this property, authorize the APS MEEP team member to enter into the above described building and its individual units in order to evaluate the potential energy-saving products that may be installed and perform an evaluation after such products are installed. I have been informed, as the authorized representative of this property and as an APS customer, that there is no cost for the specified products. I verify that the products listed above will be installed by my employees/staff at the described property within 30 days of receipt of the products. I understand that in return for these free products and the services offered above, I agree to indemnify, release and discharge APS and Franklin Energy Services, LLC from any and all claims or damages whatsoever caused by such products installed at or in the premises, in connection with the APS MEEP program. If the free energy efficiency products are not installed within 30 days of receipt, APS MEEP representatives reserve the right to collect all products and reassign reserved funding to a new program participant. MEEP participants will be charged replacement costs for any product inventory that goes missing while in the participant's possession.
