

YOU COULD BE SAVING MONEY RIGHT NOW

Lite Choice and Premier Choice

Find money-saving tips for every room.

Our Lite Choice and Premier Choice plans have a flat rate for energy used. That means the rate stays the same no matter the time of day you use electricity. For these plans, the less you use, the more you save. Here are a few ways to save:

- Turn off computers and printers when not in use
- Close blinds and drapes to keep out the sun
- Turn off ceiling fans when leaving the room
- Switch to LEDs, which use 90% less energy
- Take our free online Energy Analyzer for customized tips

Find more ways to save at aps.com/save.

LV2007002

Plan Comparison Tool

Using your energy usage over the last year, it automatically shows what you'd pay on different APS plans. Find the one that offers the most savings and switch. You can switch back or try another plan anytime. Try it at aps.com/compare.
