

HOME PERFORMANCE  
WITH ENERGY STAR®

**This winter, stay cozy  
while saving money.**

## Home Performance with ENERGY STAR®: See where you can save money.

To save money on your energy bill, start with a Home Performance with ENERGY STAR® checkup, for as low as \$99. A trained contractor will identify home improvements you can make that will:

- Save money on your energy bill
- Keep your HVAC system running efficiently
- Increase energy efficiency
- Improve your home's air quality

You'll receive a customized report outlining what you can do to your home to save money and improve comfort.

**Schedule your Home Performance with ENERGY STAR® checkup, as low as \$99, today at [aps.com/checkup](https://aps.com/checkup).**

### Home Performance PLUS, from \$399

Everything Home Performance with ENERGY STAR® offers, your specially trained contractor will show you how to save money in your home without any home improvement projects. The contractor will:

- Provide a personalized consultation and analysis of your energy usage
- Help you adjust your energy usage to save money based on your home's energy analysis
- Adjust your thermostat to maximize energy savings
- Use the analysis to make sure you are maximizing money savings on your service plan.
