100% Clean Energy by 2050

To reach our vision, we will eliminate the use of coal, add more solar with storage to harness Arizona's sunshine, and continue to invest in vital carbon-free resources. It's a bold vision that will take all of us to achieve. Together, we can create a clean energy future.

THE PATH TO SAFETY

Time is of the essence during a power outage. Please provide our repair crews with a clear, safe path by keeping trees and any other vegetation on your property from becoming overgrown and interfering with transformers, power lines or other electrical equipment.
