

We're here  
to help.

Stay in the know with  
APS Outage Center.

## Stay safe and informed in the event of an outage.

We work 24/7 to ensure reliable power for our customers across Arizona. Yet, unexpected outages can happen. Here are some helpful tips and tools:

### Get outage alerts

Sign up for text or email alerts at [aps.com/outagecenter](https://aps.com/outagecenter) to stay informed if there is an outage in your area. Plus, receive an estimate for when power will be back on.

### Report an outage

Visit [aps.com/outagecenter](https://aps.com/outagecenter). Use our mobile app. Or call **(602) 371-3680** (metro Phoenix) or **(855) 688-2437** (other areas).

### View outage map

Use our interactive outage map to find details on current power outages in your area.

When an outage does occur, we work quickly and safely to restore power. In addition, we continually upgrade, maintain and invest in the energy grid to help prevent outages from happening in the first place.

### **IMPORTANT:**

Stay at least 100 feet away from downed power lines.

Call **911** first, then APS at **(602) 371-7171**.
