

# Storms are unpredictable

APS Outage Center  
is ready

## This winter, stay informed during storm-related outages.

Our crews work year-round to prepare for snowstorms and potential outages. We're ready to respond anytime, day or night. If power goes out, we get homes and businesses back on as quickly as possible. Watch a short video at [aps.com/powerrerouting](https://aps.com/powerrerouting) to see how power is rerouted to keep the lights on while crews work to restore power.

**Make sure you're prepared as well with these tools:**

### Get outage alerts

Sign up now for text or email alerts at [aps.com/outagecenter](https://aps.com/outagecenter) to stay informed if there's an outage in your area. Plus, receive an estimated time when power will be back on.

### Report an outage

Visit [aps.com/outagecenter](https://aps.com/outagecenter). Use our mobile app. Or call **(602) 371-3680** (metro Phoenix) or **(855) 688-2437** (other areas).

### View outage map

Use our interactive outage map to find details on current power outages in your area.

### **IMPORTANT:**

Stay at least 100 feet away from downed power lines.

Call **911** first, then APS at **(602) 371-7171**.
