

Happy super off-peak season

Celebrate the savings

With super off-peak hours, the savings are automatic.

It's that time of year for our time-of-use customers to save with super off-peak pricing, weekdays from 10am to 3pm. It's already part of your plan so you will save automatically during those hours. Now that extreme summer heat is over, there's less demand on the grid. And we're passing the savings onto you. Here are just some ways to save:

- Use the delay button to run the dishwasher after 10 am
- Do laundry between 10 am and 3 pm
- Pre-heat your home before 3 pm

Find more ways to save at aps.com/save.
