

A photograph of children participating in a gardening activity. In the foreground, a young girl with braided hair, wearing a blue plaid shirt and a white ribbon, is carefully holding a small amount of dark soil in her hands. In the background, another child is visible, and a hand is holding a small green vase with a plant. The scene is set in a well-lit indoor space, likely a classroom or community center.

Project SHARE:
join the effort to provide
assistance to Arizonans in need
for as little as \$1 a month

You can help provide utility bill assistance to those in need through our partnership with The Salvation Army and Project SHARE (Service to Help Arizonans with Relief on Energy).

For as little as \$1 each month, your contribution to Project SHARE helps fill an important community need and can make a big difference in people's lives. Emergency utility bill assistance is given to people who, due to crisis situations, are unable to pay their household energy bills and have exhausted all other potential sources of aid. To lend a hand, visit aps.com/share.

Power of Giving program

You can help someone you know by contributing to their APS bill. Visit aps.com/powerofgiving.
