

Every day, your way
Budget Billing helps you plan ahead.

Whether you like to plan ahead or manage your monthly budget, Budget Billing can help. We average your past bills to even out the seasonal highs and lows so you pay about the same every month. That way your bills won't change that much throughout the year — even in summer.

To see what your Budget Billing amount would be, log in to your account and select “manage billing and payment options.”

Budget Billing + AutoPay.

Add AutoPay for extra convenience and have your Budget Billing amount paid automatically on your monthly due date. You can set up AutoPay with your bank account or credit/debit card, PayPal, Venmo and Amazon Pay*. Visit aps.com/autopay.
