

**LED fixtures with  
integrated controls reduce  
complexity and costs.**

Get rebates for LED upgrades.

## Save on LED upgrades for your facility.

It's time to flip the switch on fluorescent lighting. Improve energy performance with LED upgrades to save energy and money.

### LED advantages:

- Long-rated life of 50,000 hours or more
- Easily integrate with occupancy and daylighting controls
- Resistant to vibration and breakage
- Superior light quality to optimize visibility
