» Serving Arizona for 140 years

The right plan

Your business is unlike any other. That's why we offer rate plan options that are tiered to fit your unique energy needs. We'll assign you to a tier based on your summer peak energy use, then you can choose between a time-of-use or non-time-of-use plan. Learn more at **aps.com/bizplans** or call our Business Line at (602) 371-6767 or (800) 253-9407 to talk through your options.

Cool Rewards Business — Earn up to $100 per thermostat

With the Cool Rewards Business program, you can help conserve energy during times when energy use is highest and receive up to $100 in bill credits per qualifying thermostat enrolled in the program your first year. During conservation hours, your smart thermostat will be adjusted a few degrees, keeping your space comfortable while helping the grid meet everyone's needs. Learn more and enroll at **aps.com/coolrewardsbiz**.

Keeping bills steady

Energy bills can rise and fall throughout the year as temperatures change. While those ups and downs are expected, they're not always easy to plan for. Budget Billing helps smooth out those fluctuations by spreading your energy costs more evenly across the year. Your monthly payment is based on an average of your recent energy use, so you'll pay about the same amount each month — making budgeting simpler and more predictable. Your Budget Billing amount is reviewed periodically to help keep it aligned with your actual energy use. If you prefer a more consistent monthly bill, Budget Billing can help keep things on a steadier path. View your personalized amount and enroll at **aps.com/budgetbilling**.

140 years of serving Arizona

On April 29, 1886, a Japanese immigrant named Hutchlon Ohnick formed the Phoenix Illuminating Gas and Electric Company (later to become APS) with the first streetlamp in Phoenix at Central and Washington. More than lighting a street, it helped fuel communities, businesses and a company committed to serving customers across the state. Exactly 140 years later, on April 29, 2026, that commitment was honored through action. **APS employees across Arizona came together for the company's largest day of community service**, giving their time and energy to support causes that matter close to home. Explore 140 years of growing alongside Arizona at aps.com/140.

Stay cool, stay safe

We're here to help with heat relief during Arizona's hot summers. To support those in need, we partner with local organizations like The Salvation Army and others to provide hydration stations, transportation assistance and other resources through the end of summer.* Explore available resources and learn more at aps.com/assistance.

Giving your business more flexibility, choice and compensation

With Flex Solutions, your business can participate in conservation hours during times of high energy use and earn up to $60 per kilowatt saved while supporting a more resilient energy grid. You can use the energy technologies your business already relies on, including building management systems, batteries and backup generators. Learn more at aps.com/flex.

Let's talk about staying connected this storm season

Summer storms can cause power outages, and the best way to stay informed is to make sure we have your current contact information. When your cellphone number and email are up to date, you will receive outage updates or important service alerts.

Just sign in or create an account at aps.com/login to make sure your contact information is current. Businesses can add up to 10 phone numbers, so the right people get updates when they're needed. A few minutes now can make a big difference when storms roll through.

CUSTOMER ADVISORS ARE HERE FOR YOU
on our business phone line 7:30 a.m. – 5 p.m. weekdays
(602) 371-6767 (metro Phoenix)
(800) 253-9407 (other areas) aps.com
