CARE for customers

APS CARE continues to grow. And we're proud to join in the giving by **matching the total of all donations made — up to \$500,000** — from January 1 through December 31, 2026*. APS CARE helps our customers in need stay on top of their energy bills. To learn more or donate through your monthly bill, visit aps.com/care.

The right plan

Your business is unlike any other. That's why we offer rate plan options that are tiered to fit your unique energy needs. We'll assign you to a tier based on your summer peak energy use, then you can choose between a time-of-use or non-time-of-use plan. Learn more at aps.com/bizplans or call our Business Line at **(602) 371-6767** or **(800) 253-9407** to talk through your options.

Spring is in the air

It's the perfect season to make life easier by taking advantage of options to manage your monthly bill. With **Preferred Due Date** you can pick the day you want to pay. Combine it with **AutoPay** to have your payment automatically withdrawn using your payment method of choice. Just in time for Earth month, you can also sign up for **Paperless billing** to cut down on paper and do something good for the environment. We'll send you an email when your bill is ready to view online. You can also compare past bills or view and monitor your energy usage. See all your billing and payment options at aps.com/billingoptions.

Helping nonprofits make a bigger impact

Nonprofits make a big difference every day. For more than 20 years, we've been proud to partner with nonprofits to strengthen communities in the West Valley. To support their work, we are now accepting applications for the annual West Valley Grants program.

Eligible 501(c)(3) organizations serving arts and culture, community development, education, environment or human services can apply. Grants are awarded through the Arizona Community Foundation to groups serving Arlington, Buckeye, Glendale, Surprise, Tonopah, West Phoenix and nearby areas. Applications are open from April 1 through April 30. To apply, please visit azfoundation.org.*

Spring cleaning

To prepare for seasonal changes across Arizona, we perform routine tasks to keep power flowing safely and reliably. APS utility arborists inspect the trees and plants around our infrastructure year-round. They reduce risks by looking at vegetation that is in proximity to our power lines and communicate with our customers to manage the hazard. We work with tree workers who are specifically trained and qualified to work around power lines. If you would like to learn more and assist in keeping your community safe, including how to report a vegetation related hazard, visit us at aps.com/trees.

Be informed

When you provide a current cell phone number and email address on your aps.com account, your business will automatically receive alerts if there is an outage in your area. You can also get signed up for alerts with multiple phone numbers that help you and your coworkers stay in-the-know about your energy usage, bill amounts and payment due dates. Get details at aps.com/bizalerts.

Cool Rewards Business—earn up to \$100 per thermostat

With the Cool Rewards Business program, you can help conserve energy during times when energy use is highest and receive up to \$100 in bill credits per qualifying thermostat enrolled in the program your first year. From June 1 through Sept. 30, conservation events will be called, and your smart thermostat will be adjusted a few degrees, keeping your space comfortable while helping the grid meet everyone's needs. Learn more and enroll at aps.com/coolrewardsbiz.
