Community Corner: STEM grants with Suns

Phoenix Suns player Mark Williams surprised a Wilson Elementary School teacher in November by delivering a grant to help bring STEM learning to life for her students. This teacher was one of several educators who applied for, and won, an APS/Phoenix Suns STEM Teacher Grant to help spark curiosity, creativity and a love for science and technology among students statewide. Grant applications will open in September of 2026 with awards of up to \$2,500* for K-12 teachers who lead innovative, hands-on activities that introduce STEM concepts to the classroom at public and charter schools in Arizona. Learn about this program and more at aps.com/education.
