Application Updates/Corrections

- Equipment Addendum Request
  - Application updates
  - Equipment updates
  - System size change/cancellation

Equipment Addendum Request

This form is required for minor modifications to the design of the generating facility.

Is the total system size changing? *

- Yes
- No

Per APS Interconnection Requirements, a change in total system size is not considered a minor modification. Therefore, this application will be canceled and a new application must be submitted for review.

Residential Rate Riders

RCP – Resource Comparison Proxy

Eligibility
- Electricity must be generated using solar photovoltaic panels
- Generator must be interconnected to APS's distribution grid
- Generator must be on-site, installed behind the billing meter, and must serve the customer's load
- Facility's nameplate capacity cannot be larger than the following electrical service limits:
  - 200 Amp service, a maximum of 15 kW-dc
  - 400 Amp service, a maximum of 30 kW-dc
  - 600 Amp service, a maximum of 45 kW-dc
  - 800 Amp service and above, a maximum of 60 kW-dc
- For systems over 10 kW-dc, the facility's nameplate capacity cannot be larger than 150% of the customer's maximum one-hour peak demand measured in AC over the prior twelve (12) months.
- Must have an AMI meter

- Current Export Rate – 10.45 cents per kWh
- Export Rate effective 10/01/21 – 9.4 cents per kWh Per ACC Decision No. 77760
Residential Rate Riders

Eligibility

- Must have a qualifying on-site cogeneration or small power production facility which is interconnected to our distribution grid
- Must have a generating nameplate capacity of 100 kW-ac or less
- Must have an AMI meter

Arizona Revised Statute 44-1764

Interconnection of a distributed generation system

- An application must be submitted to the utility for review.

- The generation system may not be installed, energized or interconnected until the utility approves the application.
