Scenario for Drill

- It has been raining continuously for the last 7 days.
- Both the Fly Ash and Bottom Ash ponds are at full capacity.
- A terrorist group places 2 bombs, 1 at the base of the Fly Ash pond embankment and 1 at the base of the Bottom Ash Pond embankment . Both bombs detonate at the same time causing both the Bottom Ash and Fly Ash ponds embankment to fail.
- With the sudden influx of water into the Cholla Lake this causes the south embankment of the Cholla lake to fail as well.
