Hello,

This e-mail is sent as a follow up to the San Juan County Dam Emergency Action Plan Tabletop Exercise that was held on December 5, 2018 at the San Juan County Fire Operations Center. If you have not done so already, please review and update your EAP for your dam or dams:

- Check that the contacts and phone numbers are still valid.
- Make corrections if necessary
- Provide an updated EAP revision log sheet and copies of any revised pages to all of the entities who hold a copy of your EAP including the dam safety bureau (reply to this e-mail is fine).

If contacts are correct and no changes are required you can simply update the revision log sheet to indicate that contacts were checked. In either case please provide a copy of the revision sheet to the plan holders. When we receive notice that your EAP is current we will update our database to indicate that your EAP is up to date and that the December 5 exercise is the effective date for exercise for your dam.

Please contact me if you have questions. Thank you for your participation in the exercise. I appreciate the work that San Juan County did to bring it together and we will be glad to work with the group to assist at the next event.
Best wishes,
C. Thompson

Charles N. Thompson, PE
Chief, Dam Safety Bureau
