

**RATE SCHEDULE E-34
EXTRA LARGE GENERAL SERVICE**

AVAILABILITY

This rate schedule is available to Customers whose monthly maximum demand registers 3,000 kW or more for 3 consecutive months, over the prior 12 months.

DESCRIPTION

This rate has three parts: a basic service charge, a demand charge for the highest amount of demand (kW) averaged in a 15-minute period of maximum use during the month, and an energy charge for the total energy (kWh) used for the entire month.

CHARGES

The monthly bill will be calculated with the following charges plus adjustments. A Customer's charge will depend on the voltage of their service connection.

Bundled Charges

Customers Served at Secondary Voltage		
Basic Service Charge for Self-Contained Meters	\$ 4.756	per day
Basic Service Charge for Instrument-Rated Meters	\$ 5.682	per day
Demand Charge	\$ 23.862	per kW
Energy Charge	\$ 0.04421	per kWh

Customers Served at Primary Voltage		
Basic Service Charge	\$ 8.833	per day
Demand Charge	\$ 22.423	per kW
Energy Charge	\$ 0.04421	per kWh

Customers Served at Transmission Voltage		
Basic Service Charge	\$ 43.130	per day
Demand Charge	\$ 15.321	per kW
Energy Charge	\$ 0.04421	per kWh

**RATE SCHEDULE E-34
EXTRA LARGE GENERAL SERVICE**

Eligible Military Base Customers		
Basic Service Charge	\$ 8.833	per day
Demand Charge	\$ 16.359	per kW
Energy Charge	\$ 0.04421	per kWh

Unbundled Components of the Bundled Charges

Bundled Charges consist of the Components shown below. These are not additional charges.

Basic Service Charge Components		
Customer Accounts	\$ 4.050	per day
Meter Reading	\$ 0.010	per day
Billing	\$ 0.032	per day
Meter (only one applies)		
Self-Contained Meter	\$ 0.664	per day
Instrument-Rated Meter	\$ 1.590	per day
Primary Meter	\$ 4.741	per day
Transmission Meter	\$ 39.038	per day
Demand Charge Components		
Generation	\$ 11.664	per kW
Transmission	\$ 3.236	per kW
Delivery (only one applies)		
Secondary Service	\$ 8.962	per kW
Primary Service	\$ 7.523	per kW
Transmission Service	\$ 0.421	per kW
Eligible Military Base	\$ 1.459	per kW
Energy Charge Components		
Generation	\$ 0.04060	per kWh
System Benefits	\$ 0.00361	per kWh

The kW for billing will be the greater of:

- a. The average kW supplied during the 15-minute period of maximum use during the monthly billing period; or
- b. 80% of the highest kW measured during the six (6) summer billing months (May-October) of the twelve (12) months ending with the current month.
- c. The minimum kW specified in a service agreement. A time period other than 15 minutes can be specified in a service agreement.

ADJUSTMENTS

The bill will include the following adjustments:

1. The Renewable Energy Adjustment Charge, Adjustment Schedule REAC-1.
2. The Power Supply Adjustment charges, Adjustment Schedule PSA-1.
3. The Transmission Cost Adjustment charge, Adjustment Schedule TCA-1.
4. Direct Access Customers returning to Standard Offer service may be subject to a Returning Customer Direct Access Charge, Adjustment Schedule RCDAC-1.
5. The Demand Side Management Adjustment Charge, Adjustment Schedule DSMAC-1.
6. The Tax Expense Adjustor Mechanism charge, Adjustment Schedule TEAM.
7. The Court Resolution Surcharge, Adjustment Schedule CRS-1.
8. The System Reliability Benefit Adjustment Mechanism charge, Adjustment Schedule SRB-1.
9. Any applicable taxes and governmental fees that are assessed on APS's revenues, prices, sales volume, or generation volume.

RATE RIDERS

Eligible rate riders for this rate schedule are:

CPP-GS	Critical Peak Pricing
E-56	Partial requirements – General
E-56R	Partial requirements – Renewable
EPR-2	Partial requirements – Net billing
EPR-6	Partial Requirements – Net Metering
GPS-1, GPS-2, GPS-3	Green Power
IRR	Interruptible program
PPR	Preference power

POWER FACTOR REQUIREMENTS

1. The Customer’s load must not deviate from phase balance by more than 10%.
2. Customers receiving service at voltage levels below 69 kV must maintain a power factor of 90% lagging. The power factor cannot be leading unless the Company agrees.
3. Customers receiving service at voltage levels of 69 kV or above must maintain a power factor of $\pm 95\%$.
4. The Company may install certain monitoring equipment to test the Customer’s power factor. If the load does not meet the requirements the Customer will pay the cost to install and remove the equipment.
5. If the load does not meet the power factor requirements the Customer must resolve the issue. Otherwise, the Customer must pay for any costs incurred by the Company for investments on its system necessary to address the issue. Also, until the problem is remedied, the Company may compute the Customer’s monthly billing demand with kVA instead of kW.

SERVICE DETAILS

1. Service under this schedule is generally provided at secondary voltage. When the Customer owns the distribution transformer(s) service is provided at primary voltage.
2. The type of service provided under this schedule will be three-phase, 60 Hertz, at the Company's standard voltages that are available within the vicinity of the Customer site.
3. Daily metering charges apply to typical installations. Customers requiring specialized equipment may incur additional metering charges that reflect the additional cost.
4. Customers that self-provide some of their electrical requirements from on-site generation will be billed according to one of the partial requirement rate riders.
5. Some Customers will have a service agreement that specifies certain provisions of their electric service, such as a contract length, minimum and maximum monthly loads, special charges and other service details. This typically includes Customers taking service at primary or transmission level voltage and those on various special rates and programs.
6. Eligible military base refers to a military base receiving service at a primary voltage and served from a dedicated distribution feeder.
7. APS provides electric service under the Company's Service Schedules. These schedules provide details about how the Company serves its Customers, and they have provisions and charges that may affect the Customer's bill (for example, service connection charges).
8. Electrical service must be supplied at one point of delivery and measured through one meter unless otherwise specified in a service agreement.
9. This schedule is not applicable to breakdown, standby, supplemental, residential, or resale service.
10. Direct Access Customers who purchase available electric services from a supplier other than APS may take service under this schedule. The bill for these Customers will only include the Unbundled Component charges for Customer Accounts, Delivery, System Benefits, and any applicable Adjustments. If metering and billing services are not available from another supplier, those services will be provided by APS and billed to the Customer at the charges shown above.
