

**RATE RIDER GS-EV
GENERAL SERVICE
ELECTRIC VEHICLE RIDER**

DESCRIPTION

This rate rider provides an incentive to charge Electric Vehicles (EVs) during off-peak hours that align with solar energy production on the system and discourages charging EVs during on-peak hours.

AVAILABILITY

This rate rider is available to Standard Offer retail customer service accounts served under rates E-32 TOU Extra Small, E-32 TOU Small, E-32 TOU Medium, and E-32 TOU Large that have separately sub-metered loads that only serve qualifying Level 1 or Level 2 EV charging stations.

This rate rider is available subject to the installation and programming of required metering equipment and the completion of necessary enhancements to the Company’s billing system.

HOURS

For the purposes of this rate rider, the Off-Peak kWh Credit will apply during the hours of 9 a.m. until 3 p.m. Monday-Sunday (all days of the week), and the On-Peak kWh Charge will apply during the hours of 3 p.m. to 8 p.m. Monday-Friday (weekdays).

Rates

Credits and premiums for the respective time periods listed below are in addition to those included in the customer’s retail rate schedule.
