

**RATE SCHEDULE E-32TOU XS  
EXTRA SMALL GENERAL SERVICE (0 kW - 20 kW)  
TIME OF USE**

AVAILABILITY

This rate schedule is available to non-residential Customers and Customers with secondary services at residential sites that are separately metered such as wells or detached garages. The Customer must have a monthly load of 20 kW or less to be served on this rate schedule.

DESCRIPTION

This rate has three-parts: a basic service charge; a demand charge for the average demand (kW) supplied during the one-hour period of maximum use during the month; and an energy charge for the total energy (kWh) used for the entire month. The demand charge will vary by season and the energy charge will vary by both season (summer or winter) and the time of day that the energy is used (On-Peak or Off-Peak).

The Company will place the Customer on the applicable Rate Schedule E-32 TOU XS, E-32 TOU S, E-32 TOU M, or E-32 TOU L based on the Customer’s average summer monthly maximum demand, as determined by the Company each year. This determination will be made annually.

TIME PERIOD

On-Peak hours:	3:00 pm – 8:00 pm Monday through Friday
Off-Peak hours:	All remaining hours
Summer season:	May through October billing cycles
