

ADJUSTMENT SCHEDULE PSA-1 POWER SUPPLY ADJUSTMENT

AVAILABILITY

The Power Supply Adjustment (PSA) applies to all Customer bills with the exception of E-36 XL, AG-X, and Direct Access service.

DESCRIPTION

This adjustment schedule recovers or credits Customer bills for any fuel and purchased power costs that vary from the cost of fuel collected in base rates.

CHARGES

PSA Historical Component	\$0.001630	per kWh
PSA Forward Component	(\$0.002086)	per kWh
PSA Transition Component	\$0.000000	per kWh

SERVICE DETAILS

1. The PSA Historical Component, PSA Forward Component, and PSA Transition Component are defined in the Company's Power Supply Adjustment Plan of Administration.
2. This adjustment is recalculated on an annual basis, except for the Transition Component which may apply from time to time, and will go into effect with the first billing cycle in February (without proration) and will remain in effect for a 12-month period unless otherwise ordered by the Commission.
3. All terms and charges in the Customer's rate schedule continue to apply to electric service provided under this adjustment.
