WHY ARIZONA PUBLIC SERVICE?

With roots in Arizona for more than a century, we are heavily invested in the well-being of the state and the communities we serve. APS provides a sustainable future by investing in both its employees and customers and we generate safe, affordable, and reliable electricity. By 2030, we expect to add more than 600,000 new customers, and we will meet those growing needs with the use of smart technologies, renewable energy resources and next generation talent.
