ALL YOUR OPTIONS IN ONE CONVENIENT PLACE
At your My Account page on aps.com, you can compare your bills, monitor energy usage and more!

Learn why your bill is higher or lower than the previous month.

View your usage history, and compare months.

Register today and manage your account anytime, anywhere. Visit aps.com/register.

COOL FOR OUR CLIMATE
Did you know that air conditioners are manufactured for humid climates? Get your AC ready now for Arizona’s hot, dry summers.

With a Cool Control device, when an AC stops running, the cooling coil remains cold. Energy-efficient Cool Control devices automatically keep the fan running a few minutes longer to blow air across the cold coil and continue cooling your house.

Get ahead of summer. Having Cool Control installed is inexpensive and the devices fit most standard AC units (including brand new equipment). In addition to saving as much as 10% on your cooling costs, you’ll qualify for a $70 rebate when your device is installed by a participating contractor.

For more information on our Cool Control rebate program, including a list of participating contractors, please visit aps.com/coolcontrol.

FOLLOW US ON INSTAGRAM
Arizona is overflowing with natural splendor. And you’ll find our state’s beauty showcased in the photography featured on our new Instagram channel @apsFYI.

From linemen and engineers to welders and computer programmers, our employees live and work in virtually every corner of Arizona. In the course of their work they often encounter spectacular scenes, which they capture in photos that spotlight our state and tell the stories of the communities in which we live, work and serve.

Our Instagram channel provides a gallery of colorful images of renowned Arizona landmarks and unique views from off the beaten path.

To join us in celebrating the diverse beauty of Arizona, please follow us on Instagram @apsFYI.

Your Energy, Your Options
Going paperless is good for the environment—and a great way to manage your energy account. When you enroll in paperless billing, you’ll receive an email notification each month when your bill is ready. It’s free and easy to switch. Visit aps.com/paperless.
We have a variety of plans to choose from. Pick one of our Premier Choice plans and enjoy the ultimate in convenience. With this plan, energy is the same convenient price no matter when you use it. Or choose our Saver Choice plan for the perfect balance of savings and convenience. With Saver Choice, the more you shift energy use to lower-cost off-peak hours, the more you’ll save. Or choose Saver Choice Plus to take savings into your own hands or Saver Choice Max for your greatest savings potential.

All of the Saver Choice time-of-use plans offer more (lower cost) off-peak hours and four additional off-peak holidays, which is 10 total, a year.

The sooner you switch, the sooner you can start taking advantage of the benefits.

Find the best plan for you at aps.com/plans.

Sincerely,

Stacy Derstine
VP Customer Service and Chief Customer Officer

Our employees dedicate much of their time and expertise to serving the needs of our communities. In fact, in 2016, our employees logged a combined total of nearly 120,000 volunteer hours.

During the holiday season, nonprofits need our help more than ever. Every year we host Light Up the Holidays events so our employees can participate in volunteer activities that support those in need during the holidays.

Our holiday volunteer efforts began in mid-November and span throughout the holiday season. This year we will be writing letters for our heroes with the American Red Cross and cards for families with The Salvation Army. We will also be preparing bedside activity kits for Phoenix Children’s Hospital and encouraging cash donations for a Turkey Drive.

The holidays are an important time to give back to the communities in which we live and work. We are proud to support so many dedicated organizations.

Joining in the Project SHARE program makes it easy for you to help those in need—not just during the holidays but throughout the year. When you enroll in Project SHARE, your tax-deductible donation will be added to your monthly energy bill. And we’ll match your donation dollar for dollar. For more information, please visit aps.com/share.

If holiday lights are brightening your home this holiday season, take the following steps to stay safe:

- Inspect holiday lights for damaged sockets, loose connections and bare wires before plugging them in
- Make sure your extension cords aren’t cracked or frayed
- Turn off and unplug indoor and outdoor holiday lights before going to sleep or leaving the house

Programs funded by APS customers and approved by the Arizona Corporation Commission. CS#1709011
