Learning about your home’s energy efficiency is just one of the many benefits of taking our all-new Energy Analyzer online survey.

Our Energy Support Program (E-3) offers assistance to limited-income customers. See if you or someone you know is eligible.

Switching to paperless billing makes things simple. You will receive an email when your bill is ready and can sign up for text or email payment reminders.

Have you switched to one of our new plans? If not, we will move you to one of our new plans that is most similar to your current plan. Learn more today.

Grandfathered solar customers are not required to move to one of our new service plans and will not be transitioned to a new plan.

With so many ways to pay your energy bill, you’re sure to find the option that suits you best.
Community Corner

It’s Time to Celebrate National Literacy Month

Early childhood education and literacy programs are important to us, which is why we support the Dolly Parton Imagination Library and the Read Better Be Better program. In partnership with Pinal County United Way, the Dolly Parton Imagination Library mails high-quality books to under-resourced children in Southern Arizona.

Crews Head to Puerto Rico

In light of the power outages caused by devastating hurricanes that hit Puerto Rico last September, 50 of our line workers and support staff headed to Puerto Rico in early January to help turn the lights back on. Our crews are a part of a nationwide mutual assistance effort, which sent nearly 1,500 electric workers to bolster restoration efforts on the island.

SAFETY

Stay safe when tackling DIY projects at home.

- Unplug electric appliances before working on them
- Never use power tools near live electrical wires, water pipes or gas pipes
- Use caution when cutting or drilling into walls to avoid contact with electrical wires

GOLD RUSH DAYS

The APS Volunteer Clown Troupe entertained the crowd along the parade route at Wickenburg’s 70th annual Gold Rush Days in February.

EASY ENERGY SAVERS

- Adjust your thermostat when you leave the house
- Change air filters on a regular basis
- Shut off computers, TVs and lamps when they’re not being used
- Repair energy-wasting gaps around windows and doors
