Tax Savings Passed On to Our Customers
As part of our commitment to deliver affordable energy, we’re returning savings from federal tax cuts directly to our customers. Total tax savings of $119 million began passing back to our customers earlier this year. And, pending approval from the Arizona Corporation Commission, we plan to return an additional $86.5 million to customers beginning in January. These savings are shown on your bill as the Tax Expense Adjustor line.

HOLIDAY LIGHTING SAFETY
If you’re decorating your home for the holidays, use caution to prevent electrical and fire hazards:
• Before plugging in electric lights, inspect them for damaged sockets, loose connections and bare wires
• Don’t overload electrical outlets
• Turn off and unplug all electrical decorations before going to sleep or leaving the house
